(312) 576-5202

## Core Competencies

e|Resilient helps to protect small/medium-sized businesses by creating holistic continuity plans intended to sustain their operations should unforeseen disruptions occur. We can provide the following services:

- Business Continuity, Emergency Response, Supply Chain Risk and Crisis Management Consulting Services
- Plan exercising and program maintenance
- Real-Time Incident Management support services
- Developing and actively monitoring your intelligent supply chain
- Vendor management/Vendor selection support for resiliency solutions

### Past Performance

- Two decades of experience leading business continuity planning for Fortune 100 companies.
- Ability to easily communicate (“translate”) process details in a manner that business owners and their teams understand.
- High touch guidance through the process of continuity planning leveraging technology to guide clients through the process.

### Differentiators

- Certified Master Business Continuity Professional (MBCP)
- Certified Business Continuity Lead Auditor (CBCLA)
- Member of the Business Continuity Institute (MBCI)
- Project Management Professional (PMP) Certification

The team at e|Resilient has mastered the skill of business continuity planning. Our time working with Fortune 100 companies for over 25 years has provided us with the expertise to help our clients plan for a range of potential occurrences and the most efficient and effective way to tackle the unexpected.

We know the importance of keeping your operations running smoothly even when hard times arise. Our main objective is the protection of your business. We will develop an integrated plan to safeguard your business should an unexpected disruption occur.
